

# What if ... one connection could spark a breakthrough?

**30**  
Years

**150+**  
Live & Virtual  
Events

Uniting today's leading  
researchers, scientists  
and technologists  
to inspire discovery

**Conference Catalog**

October 2022-June 2023

**Healthtech.com**

CHI is a Division of  
 **Cambridge Innovation Institute**  
RESEARCH • COLLABORATION • ADVANCEMENT

## TABLE OF CONTENTS

<b>Short Courses</b> .....	3
<b>Conference By Series</b>	
Biological Therapeutic Products .....	4
Therapeutic Indications .....	5
Bioprocess and Manufacturing .....	5
Informatics and IT .....	6
Drug and Device Safety .....	6
Chemistry .....	7
Clinical Trials & Translational Medicine .....	7
Detection .....	7
Biomarkers and Diagnostics .....	8
Genomics.....	8
BioPharmaceutical Strategy.....	8
Drug Targets.....	9
Technology and Tools for Life Sciences.....	10
Drug Discovery & Development .....	11
<b>Conferences by Date with Detail</b> .....	12

## ABOUT CAMBRIDGE HEALTHTECH INSTITUTE

For 30 years, Cambridge Healthtech Institute has developed more than 800 conferences, which have attracted over 60,000 attendees from around the world. CHI is the industry leader in offering quality programs that provide valuable new insights and competing points of view while offering balanced coverage of the latest developments in the life science industry. Leading researchers and business experts from top pharmaceutical, biotech, and academic organizations present their most current findings in a forum that features panel discussions and audience participation.

Each year, CHI organizes over 150+ Live & Virtual Events geared to the biotech and pharmaceutical industries with specific focuses on Biomarkers, Genomics, Proteins and Proteomics, Drug Discovery & Development, IT and Informatics, Chemistry, Diagnostics & Safety, and Business.

For a comprehensive listing and detailed information about our products and services, please visit: [healthtech.com](http://healthtech.com).

## CONTACT US

### CLIENT RELATIONS

Pamela Gerardi  
Director, Client Relations  
E: [pgerardi@healthtech.com](mailto:pgerardi@healthtech.com) | T: 781-972-5409

Kris Waterman  
Client Relations Manager  
E: [kwateman@healthtech.com](mailto:kwateman@healthtech.com) | T: 781-972-5413

### MARKETING

Jim MacNeil  
Vice President of Marketing  
E: [jmacneil@healthtech.com](mailto:jmacneil@healthtech.com) | T: 781-972-5441

Rich Handy  
Senior Director of Marketing  
E: [rhandy@healthtech.com](mailto:rhandy@healthtech.com) | T: 781-972-5456

### SPONSOR & EXHIBIT SALES

Patty Rose  
Interim Sales Director  
E: [prose@healthtech.com](mailto:prose@healthtech.com) | T: 781.972.1349

### GROUP SALES

David Cunningham  
Director, Inside Sales  
E: [cunningham@healthtech.com](mailto:cunningham@healthtech.com) | T: 781-972-5472

### GRAPHICS

Thomas Norton  
Design Director  
E: [tnorton@healthtech.com](mailto:tnorton@healthtech.com) | T: 781-972-5440

### PRODUCTION

Edel O' Regan, Ph.D.  
Vice President of Production  
E: [eoregan@healthtech.com](mailto:eoregan@healthtech.com) | T: 781-972-5423

Christina Lingham  
Executive Director, Conferences and Fellow  
E: [clingham@healthtech.com](mailto:clingham@healthtech.com) | T: 781-972-5464

Mary Ann Brown  
Executive Director of Conferences  
E: [mabrown@healthtech.com](mailto:mabrown@healthtech.com) | T: 781-972-5497

Julia Boguslavsky  
Executive Director of Conferences  
E: [juliab@healthtech.com](mailto:juliab@healthtech.com) | T: 760-732-3139

Micah Lieberman  
Executive Director of Conferences  
E: [mlieberman@healthtech.com](mailto:mlieberman@healthtech.com) | T: 541-482-4709

Marina Filshtinsky  
Executive Director of Conferences  
E: [mfilshtinsky@healthtech.com](mailto:mfilshtinsky@healthtech.com) | T: 781-97205496

### Cambridge Healthtech Institute

250 First Avenue, Suite 300 | Needham, MA 02494  
T: (781) 972-5400 or Toll-free in the U.S. 888-999-6288  
F: (781) 972-5425

## KEY EVENTS: October 2022 - June 2023

## Short Courses

### Biostatistics for Beginners

October 3, 2022 • Arlington, VA

### Development of Neutralizing Antibody Assays: Technical Considerations and Case Studies

October 3, 2022 • Arlington, VA

### Overcoming Drug and Target Interference in ADA Assays

October 3, 2022 • Arlington, VA

### Validation of ADA Assays and Cut Point Calculations

October 3, 2022 • Arlington, VA

### Recent Advances with Gene and Cell Therapy

October 3, 2022 • Arlington, VA

### Design of Experiments for Bioassays: What are They, and Why do You Need Them?

October 5, 2022 • Arlington, VA

### Immunogenicity Assessment of Antisense Oligonucleotides During Preclinical and Clinical Studies

October 5, 2022 • Arlington, VA

### Battery Safety and Abuse Tolerance Validation

October 13, 2022 • Tysons, VA

### Advances in Solid-State Batteries

October 13, 2022 • Tysons, VA

### Chemical Biology for Phenotypic Screening and Target Deconvolution

October 17, 2022 • Boston, MA

### Best Practices for Targeting GPCRs, Ion Channels, and Transporters with Monoclonal Antibodies

October 17, 2022 • Boston, MA

### Protein Degradation: A Focus on PROTACs from a Beyond Rule of Five Space Perspective

October 17, 2022 • Boston, MA

### Protein Degradation: A Focus on PROTACs from an ADME-Tox Perspective

October 19, 2022 • Boston, MA

### Biophysical Tools for Membrane Proteins: Drug Discovery Applications

October 19, 2022 • Boston, MA

### DNA-Encoded Libraries

October 19, 2022 • Boston, MA

### Potency Assays and Comparability for Cell & Gene Therapies

November 13, 2022 • Barcelona

### Use and Troubleshooting of Eukaryotic Expression Systems

November 13, 2022 • Barcelona

### Developability of Bispecific Antibodies: Formats and Applications

November 13, 2022 • Barcelona

### Machine Learning Tools for Protein Engineering

November 13, 2022 • Barcelona

### The Tumour Microenvironment and Response to Cancer Immunotherapy

November 13, 2022 • Barcelona

# Breakthroughs happen.

Browse Upcoming Conferences at  
**Healthtech.com**

## Biological Therapeutic Products

### Immunogenicity & Bioassay Summit

October 3-6, 2022 • Arlington, VA

### Immunology for Biotherapeutics

October 3, 2022 • Alexandria, VA

### Immunogenicity Assessment & Clinical Relevance

October 4-5, 2022 • Alexandria, VA

### Immunogenicity Prediction and Control

October 5-6, 2022 • Alexandria, VA

### Optimizing Bioassays for Biologics

October 5-6, 2022 • Alexandria, VA

### Immuno-Oncology Summit

October 12-14, 2022 • Boston, MA

### Combination Immunotherapies for Cancer

October 12-13, 2022 • Boston, MA

### Advances in CART Therapy

October 12-13, 2022 • Boston, MA

### Preclinical and Translational Immuno-Oncology

October 12-13, 2022 • Boston, MA

### Bispecific Antibodies for Cancer Immunotherapy

October 12-13, 2022 • Boston, MA

### Overcoming Resistance to IO Therapy

October 13-14, 2022 • Boston, MA

### Emerging Technologies for IO Targeting and Discovery

October 13-14, 2022 • Boston, MA

### Emerging Cell-Based Immunotherapies

October 13-14, 2022 • Boston, MA

### Antibodies Against Membrane Protein Targets: Part 1

October 18-19, 2022 • Boston, MA

### Antibodies Against Membrane Protein Targets: Part 2

October 19-20, 2022 • Boston, MA

### Neurodegeneration Targets

October 19-20, 2022 • Boston, MA

### PEGS Europe: Protein and Antibody Engineering Summit

November 14-16, 2022 • Barcelona

### Modulating the Tumour Microenvironment

November 14, 2022 • Barcelona

### Optimisation & Developability

November 14, 2022 • Barcelona

### Display of Biologics

November 14, 2022 • Barcelona

### Cell Line and Systems Engineering

November 14, 2022 • Barcelona

### Cell and Gene Therapy Analytics

November 14, 2022 • Barcelona

### Introduction to Bispecific Antibodies

November 14-15, 2022 • Barcelona

### Advancing Bispecifics and Combination Therapy to the Clinic

November 15, 2022 • Barcelona

### Emerging Targets and Therapeutic Approaches

November 15, 2022 • Barcelona

### Optimising Expression Platforms

November 15, 2022 • Barcelona

### Analytical Characterisation of Biotherapeutics

November 15, 2022 • Barcelona

### Engineering Antibodies

November 15, 2022 • Barcelona

### Winning Strategies for CART, TCR, and TIL Therapies

November 15, 2022 • Barcelona

### Engineering Bispecific Antibodies

November 16, 2022 • Barcelona

### Protein Stability & Aggregation

November 16, 2022 • Barcelona

### Protein Purification Technologies

November 16, 2022 • Barcelona

### Immunotherapy Safety and Efficacy

November 16, 2022 • Barcelona

### Machine Learning Approaches for Protein Engineering

November 16, 2022 • Barcelona

### Antibodies Against Membrane Protein Targets

November 16, 2022 • Barcelona

### PepTalk - The Protein Science & Production Week

January 16-20, 2023 • San Diego, CA

### Higher-Throughput Bioproduction

January 16-17, 2023 • San Diego, CA

### Characterization of Biotherapeutics

January 16-17, 2023 • San Diego, CA

### Cell Line Engineering and Development

January 16-17, 2023 • San Diego, CA

### Gene Therapy Analytics & Manufacturing

January 16-17, 2023 • San Diego, CA

### Characterizing Protein Aggregates and Impurities

January 17-18, 2023 • San Diego, CA

### Cell Therapy Analytics & Manufacturing

January 17-18, 2023 • San Diego, CA

### Developability of Bispecific Antibodies

January 17-18, 2023 • San Diego, CA

### Recombinant Protein Expression and Production

January 17-18, 2023 • San Diego, CA

### Safety and Efficacy of Bispecific Antibodies, ADCs and Combination Therapy

January 19-20, 2023 • San Diego, CA

### Characterization and Development of Vaccines

January 19-20, 2023 • San Diego, CA

### Optimizing Workflows in Protein Production Laboratories

January 19-20, 2023 • San Diego, CA

### Advanced Purification and Recovery

January 19-20, 2023 • San Diego, CA

### Cell Culture and Bioproduction

March 14-15, 2023 • Barcelona

### Advances in Recovery and Purification

March 14-15, 2023 • Barcelona

### Gene Therapy CMC and Analytics

March 14-15, 2023 • Barcelona

### Analytics and Characterization

March 14-15, 2023 • Barcelona

### Cell Therapy Manufacturing

March 14-15, 2023 • Barcelona

### Cell Line Development

March 15-16, 2023 • Barcelona

### Intensified and Continuous Processing

March 15-16, 2023 • Barcelona

### Cell Therapy CMC and Analytics

March 15-16, 2023 • Barcelona

### Formulation and Stability

March 15-16, 2023 • Barcelona

### Gene Therapy Manufacturing

March 15-16, 2023 • Barcelona

### PEGS Boston: The Essential Protein Engineering & Cell Therapy Summit

May 15-19, 2023 • Boston, MA

### Display of Biologics

May 15-16, 2023 • Boston, MA

### Difficult-to-Express Proteins

May 15-16, 2023 • Boston, MA

### Digital Integration in Biotherapeutic Analytics

May 15-16, 2023 • Boston, MA

### Improving Immunotherapy Efficacy and Safety

May 15-16, 2023 • Boston, MA

### Antibodies for Cancer Therapy

May 15-16, 2023 • Boston, MA

### Emerging Indications for Therapeutic Antibodies

May 15-16, 2023 • Boston, MA

### Engineering Antibodies

May 16-17, 2023 • Boston, MA

### Biophysical Methods

May 16-17, 2023 • Boston, MA

### Optimizing Protein Expression

May 16-17, 2023 • Boston, MA

### Cell-Based Immunotherapies

May 16-17, 2023 • Boston, MA

### Advancing Bispecific Antibodies and Combination Therapy to the Clinic

May 16-17, 2023 • Boston, MA

### Immunogenicity Assessment and Management

May 16-17, 2023 • Boston, MA

### Emerging Targets for Oncology and Beyond

May 16-17, 2023 • Boston, MA

### mRNA Therapeutics

May 16-17, 2023 • Boston, MA

### Machine Learning Approaches for Protein Engineering

May 18-19, 2023 • Boston, MA

### Characterization for Novel Biotherapeutics

May 18-19, 2023 • Boston, MA

### Engineering Bispecific Antibodies

May 18-19, 2023 • Boston, MA

### Driving Clinical Success in Antibody-Drug Conjugates

May 18-19, 2023 • Boston, MA

## Therapeutic Indications SERIES

### Immunology for Biotherapeutics

October 3, 2022 • Alexandria, VA

### Emerging Immune Modulation Strategies

October 17, 2022 • Boston, MA

### Targeting RNA

October 18-19, 2022 • Boston, MA

### Artificial Intelligence in Drug Discovery: Part 1

October 18-19, 2022 • Boston, MA

### Target Identification and Validation: Part 1

October 18-19, 2022 • Boston, MA

### Small Molecule Immuno-Oncology Targets

October 18-19, 2022 • Boston, MA

### PROTACs and Molecular Glues: Part 1

October 18-19, 2022 • Boston, MA

### Targeting KRAS and Other Small G Proteins

October 18-19, 2022 • Boston, MA

### PROTACs and Molecular Glues: Part 2

October 19-20, 2022 • Boston, MA

### New Antivirals

October 19-20, 2022 • Boston, MA

### Target Identification and Validation: Part 2

October 19-20, 2022 • Boston, MA

### Artificial Intelligence in Drug Discovery: Part 2

October 19-20, 2022 • Boston, MA

### Modulating the Tumour Microenvironment

November 14, 2022 • Barcelona

### Optimisation & Developability

November 14, 2022 • Barcelona

### Cell and Gene Therapy Analytics

November 14, 2022 • Barcelona

### Advancing Bispecifics and Combination Therapy to the Clinic

November 15, 2022 • Barcelona

### Emerging Targets and Therapeutic Approaches

November 15, 2022 • Barcelona

### Analytical Characterisation of Biotherapeutics

November 15, 2022 • Barcelona

### Engineering Antibodies

November 15, 2022 • Barcelona

### Winning Strategies for CART, TCR, and TIL Therapies

November 15, 2022 • Barcelona

### Engineering Bispecific Antibodies

November 16, 2022 • Barcelona

### Protein Stability & Aggregation

November 16, 2022 • Barcelona

### Immunotherapy Safety and Efficacy

November 16, 2022 • Barcelona

### Gene Therapy Analytics & Manufacturing

January 16-17, 2023 • San Diego, CA

### Cell Therapy Analytics & Manufacturing

January 17-18, 2023 • San Diego, CA

### Developability of Bispecific Antibodies

January 17-18, 2023 • San Diego, CA

### Safety and Efficacy of Bispecific Antibodies, ADCs and Combination Therapy

January 19-20, 2023 • San Diego, CA

### Characterization and Development of Vaccines

January 19-20, 2023 • San Diego, CA

### Multi-Cancer Early Detection

March 7-8, 2023 • San Diego, CA

### Covalent Modifications & Induced Proximity

April 10, 2023 • San Diego, CA

### Targeting Transcription Factors

April 10, 2023 • San Diego, CA

### RNA-Targeting Small Molecule Drugs

April 11-12, 2023 • San Diego, CA

### Small Molecule Immuno-Modulators

April 11-12, 2023 • San Diego, CA

### Protein Degraders & Molecular Glues: Part 1

April 11-12, 2023 • San Diego, CA

### Protein-Protein Interactions

April 12-13, 2023 • San Diego, CA

### Encoded Libraries for Drug Discovery

April 12-13, 2023 • San Diego, CA

### Protein Degraders & Molecular Glues: Part 2

April 12-13, 2023 • San Diego, CA

### PEGS Boston: The Essential Protein Engineering & Cell Therapy Summit

May 15-19, 2023 • Boston, MA

### Display of Biologics

May 15-16, 2023 • Boston, MA

### Digital Integration in Biotherapeutic Analytics

May 15-16, 2023 • Boston, MA

### Improving Immunotherapy Efficacy and Safety

May 15-16, 2023 • Boston, MA

### Antibodies for Cancer Therapy

May 15-16, 2023 • Boston, MA

### Emerging Indications for Therapeutic Antibodies

May 15-16, 2023 • Boston, MA

### Cell-Based Immunotherapies

May 16-17, 2023 • Boston, MA

### Advancing Bispecific Antibodies and Combination Therapy to the Clinic

May 16-17, 2023 • Boston, MA

### Immunogenicity Assessment and Management

May 16-17, 2023 • Boston, MA

### Emerging Targets for Oncology and Beyond

May 16-17, 2023 • Boston, MA

### mRNA Therapeutics

May 16-17, 2023 • Boston, MA

### Engineering Bispecific Antibodies

May 18-19, 2023 • Boston, MA

### Driving Clinical Success in Antibody-Drug Conjugates

May 18-19, 2023 • Boston, MA

### Bio-IT World Conference & Expo

May 16-18, 2023 • Boston, MA

### AI for Oncology, Precision Medicine, and Health

May 17-18, 2023 • Boston, MA

### Optimizing Bioassays for Biologics

October 5-6, 2022 • Alexandria, VA

### Evaluating Biopharma: Supply Chain Challenges

October 6, 2022 • Virtual

### Evaluating Biopharma: Process Intensification

October 27, 2022 • Virtual

### Cell Line and Systems Engineering

November 14, 2022 • Barcelona

### Optimising Expression Platforms

November 15, 2022 • Barcelona

### Protein Purification Technologies

November 16, 2022 • Barcelona

### Evaluating Biopharma: Cell Therapy Strategies

December 15, 2022 • Virtual

### PepTalk - The Protein Science & Production Week

January 16-20, 2023 • San Diego, CA

### Higher-Throughput Bioproduction

January 16-17, 2023 • San Diego, CA

healthtech.com

### Characterization of Biotherapeutics

January 16-17, 2023 • San Diego, CA

### Gene Therapy Analytics & Manufacturing

January 16-17, 2023 • San Diego, CA

March 14-16, 2023 • Barcelona

### Cell Culture and Bioproduction

March 14-15, 2023 • Barcelona

### Advances in Recovery and Purification

March 14-15, 2023 • Barcelona

### Gene Therapy CMC and Analytics

March 14-15, 2023 • Barcelona

### Analytics and Characterisation

March 14-15, 2023 • Barcelona

### Cell Therapy Manufacturing

March 14-15, 2023 • Barcelona

### Cell Line Development

March 15-16, 2023 • Barcelona

### Intensified and Continuous Processing

March 15-16, 2023 • Barcelona

### Cell Therapy CMC and Analytics

March 15-16, 2023 • Barcelona

### Formulation and Stability

March 15-16, 2023 • Barcelona

### Gene Therapy Manufacturing

March 15-16, 2023 • Barcelona

## Informatics AND IT

**Summit for Clinical Ops Executives Europe**  
October 3-4, 2022 • Barcelona

**Feasibility, Site Selection and Study Activation**  
October 3-4, 2022 • Barcelona

**Enrollment Planning, Participant Engagement and Recruitment**  
October 3-4, 2022 • Barcelona

**Risk-Based Quality Management and Monitoring**  
October 3-4, 2022 • Barcelona

**Clinical Data Strategy, Digital Endpoints and RWD**  
October 3-4, 2022 • Barcelona

**Emerging Immune Modulation Strategies**  
October 17, 2022 • Boston, MA

**Targeting RNA**  
October 18-19, 2022 • Boston, MA

**Artificial Intelligence in Drug Discovery: Part 1**  
October 18-19, 2022 • Boston, MA

**Target Identification and Validation: Part 1**  
October 18-19, 2022 • Boston, MA

**Antibodies Against Membrane Protein Targets: Part 1**  
October 18-19, 2022 • Boston, MA

**PROTACs and Molecular Glues: Part 1**  
October 18-19, 2022 • Boston, MA

**PROTACs and Molecular Glues: Part 2**  
October 19-20, 2022 • Boston, MA

**Target Identification and Validation: Part 2**  
October 19-20, 2022 • Boston, MA

**Antibodies Against Membrane Protein Targets: Part 2**  
October 19-20, 2022 • Boston, MA

**Artificial Intelligence in Drug Discovery: Part 2**  
October 19-20, 2022 • Boston, MA

**Bio-IT World Conference & Expo Europe**  
October 18-19, 2022 • Berlin

**Bioinformatics**  
October 18-19, 2022 • Berlin

**Data Management**  
October 18-19, 2022 • Berlin

**AI for Pharma**  
October 18-19, 2022 • Berlin

**Storage Infrastructure & Cloud Computing**  
October 18-19, 2022 • Berlin

**R&D in Pharma**  
October 18-19, 2022 • Berlin

**Optimisation & Developability**  
November 14, 2022 • Barcelona

**Engineering Antibodies**  
November 15, 2022 • Barcelona

**Protein Stability & Aggregation**  
November 16, 2022 • Barcelona

**Machine Learning Approaches for Protein Engineering**  
November 16, 2022 • Barcelona

**Intelligent Antibody Discovery: Part 1**  
January 16-17, 2023 • San Diego, CA

**Higher-Throughput Bioproduction**  
January 16-17, 2023 • San Diego, CA

**Intelligent Antibody Discovery: Part 2**  
January 17-18, 2023 • San Diego, CA

**Creative Protein Engineering**  
January 19-20, 2023 • San Diego, CA

**Advanced Purification and Recovery**  
January 19-20, 2023 • San Diego, CA

**Summit for Clinical Ops Executives (SCOPE)**  
February 6-9, 2023 • Orlando, FL

**Clinical Supply**  
February 6-9, 2023 • Orlando, FL

**Data**  
February 6-9, 2023 • Orlando, FL

**Decentralized & Hybrid**  
February 6-9, 2023 • Orlando, FL

**Digital Measurements**  
February 6-9, 2023 • Orlando, FL

**Real World Evidence**  
February 6-10, 2023 • Orlando, FL

**Molecular & Precision Med Tri-Con**  
March 6-8, 2023 • San Diego, CA

**Digital Medicine**  
March 6-7, 2023 • San Diego, CA

**Decode 2023 • : AI for Pharmaceutical Executives**  
March 7-8, 2023 • San Diego, CA

**Artificial Intelligence for Early Drug Discovery: Part 1**  
April 11-12, 2023 • San Diego, CA

**Artificial Intelligence for Early Drug Discovery: Part 2**  
April 12-13, 2023 • San Diego, CA

**PEGS Boston: The Essential Protein Engineering & Cell Therapy Summit**  
May 15-19, 2023 • Boston, MA

**Machine Learning Approaches for Protein Engineering**  
May 18-19, 2023 • Boston, MA

**Bio-IT World Conference & Expo**  
May 16-18, 2023 • Boston, MA

**Modern Data Platforms and Storage Infrastructure**  
May 17-18, 2023 • Boston, MA

**Software Applications and Services**  
May 17-18, 2023 • Boston, MA

**Data Management**  
May 17-18, 2023 • Boston, MA

**Cloud Computing**  
May 17-18, 2023 • Boston, MA

**Digitization of Clinical Development and Clinical Trials**  
May 17-18, 2023 • Boston, MA

**Data Science and Analytics Technologies**  
May 17-18, 2023 • Boston, MA

**Bioinformatics**  
May 17-18, 2023 • Boston, MA

**AI for Oncology, Precision Medicine, and Health**  
May 17-18, 2023 • Boston, MA

**Pharmaceutical R&D Informatics**  
May 17-18, 2023 • Boston, MA

**AI for Drug Discovery and Development**  
May 17-18, 2023 • Boston, MA

**Digital Biopharma**  
May 17-18, 2023 • Boston, MA

**Automation, Digital Lab, and Robotics**  
May 17-18, 2023 • Boston, MA

**Digital Health**  
May 17-18, 2023 • Boston, MA

**FAIR Data**  
May 16, 2023 • Boston, MA

**Knowledge Graphs**  
May 16, 2023 • Boston, MA

## Drug & Device Safety Series

**Immunogenicity Assessment & Clinical Relevance**  
October 4-5, 2022 • Alexandria, VA

**Immunogenicity Prediction and Control**  
October 5-6, 2022 • Alexandria, VA

**Emerging Immune Modulation Strategies**  
October 17, 2022 • Boston, MA

**Targeting RNA**  
October 18-19, 2022 • Boston, MA

**Artificial Intelligence in Drug Discovery: Part 1**  
October 18-19, 2022 • Boston, MA

6 | Cambridge Healthtech Institute

**Target Identification and Validation: Part 1**  
October 18-19, 2022 • Boston, MA

## CHEMISTRY

### Combination Immunotherapies for Cancer

October 12-13, 2022 • Boston, MA

### Emerging Immune Modulation Strategies

October 17, 2022 • Boston, MA

### Targeting RNA

October 18-19, 2022 • Boston, MA

### Artificial Intelligence in Drug Discovery: Part 1

October 18-19, 2022 • Boston, MA

### Target Identification and Validation: Part 1

October 18-19, 2022 • Boston, MA

### GPCR-Based Drug Discovery

October 18-19, 2022 • Boston, MA

### PROTACs and Molecular Glues: Part 1

October 18-19, 2022 • Boston, MA

### Targeting KRAS and Other Small G Proteins

October 18-19, 2022 • Boston, MA

### PROTACs and Molecular Glues: Part 2

October 19-20, 2022 • Boston, MA

### New Antivirals

October 19-20, 2022 • Boston, MA

### Target Identification and Validation: Part 2

October 19-20, 2022 • Boston, MA

### Drug Lead Generation Strategies

October 19-20, 2022 • Boston, MA

### Neurodegeneration Targets

October 19-20, 2022 • Boston, MA

### Artificial Intelligence in Drug Discovery: Part 2

October 19-20, 2022 • Boston, MA

### Drug Discovery Chemistry

April 10-13, 2023 • San Diego, CA

### Covalent Modifications & Induced Proximity

April 10, 2023 • San Diego, CA

### Targeting Transcription Factors

April 10, 2023 • San Diego, CA

### Fragment-Based Drug Discovery

April 11-12, 2023 • San Diego, CA

### Artificial Intelligence for Early Drug Discovery: Part 1

April 11-12, 2023 • San Diego, CA

### RNA-Targeting Small Molecule Drugs

April 11-12, 2023 • San Diego, CA

### Small Molecule Immuno-Modulators

April 11-12, 2023 • San Diego, CA

### Protein Degradation & Molecular Glues: Part 1

April 11-12, 2023 • San Diego, CA

### Protein-Protein Interactions

April 12-13, 2023 • San Diego, CA

### Encoded Libraries for Drug Discovery

April 12-13, 2023 • San Diego, CA

### Protein Degradation & Molecular Glues: Part 2

April 12-13, 2023 • San Diego, CA

### bRo5: Macrocyclics, Degradation, & More

April 12-13, 2023 • San Diego, CA

### Artificial Intelligence for Early Drug Discovery: Part 2

April 12-13, 2023 • San Diego, CA

## Clinical Trials and TRANSLATIONAL MEDICINE

### Summit for Clinical Ops Executives Europe

October 3-4, 2022 • Barcelona

### Feasibility, Site Selection and Study Activation

October 3-4, 2022 • Barcelona

### Enrollment Planning, Participant Engagement and Recruitment

October 3-4, 2022 • Barcelona

### Risk-Based Quality Management and Monitoring

October 3-4, 2022 • Barcelona

### Clinical Data Strategy, Digital Endpoints and RWD

October 3-4, 2022 • Barcelona

### Immunogenicity & Bioassay Summit

October 3-6, 2022 • Arlington, VA

### Immunogenicity Assessment & Clinical Relevance

October 4-5, 2022 • Alexandria, VA

### Immunogenicity Prediction and Control

October 5-6, 2022 • Alexandria, VA

### Advances in CART Therapy

October 12-13, 2022 • Boston, MA

### Preclinical and Translational Immuno-Oncology

October 12-13, 2022 • Boston, MA

### Emerging Cell-Based Immunotherapies

October 13-14, 2022 • Boston, MA

### Small Molecule Immuno-Oncology Targets

October 18-19, 2022 • Boston, MA

### Targeting KRAS and Other Small G Proteins

October 18-19, 2022 • Boston, MA

### New Antivirals

October 19-20, 2022 • Boston, MA

### Bio-IT World Conference & Expo Europe

October 18-19, 2022 • Berlin

### Summit for Clinical Ops Executives (SCOPE)

February 6-9, 2023 • Orlando, FL

### Feasibility & Study Start-Up

February 6-9, 2023 • Orlando, FL

### Recruitment & Engagement

February 6-9, 2023 • Orlando, FL

### Budgeting & Resources

February 6-9, 2023 • Orlando, FL

### Outsourcing

February 6-9, 2023 • Orlando, FL

### Clinical Supply

February 6-9, 2023 • Orlando, FL

### Data

February 6-9, 2023 • Orlando, FL

### Decentralized & Hybrid

February 6-9, 2023 • Orlando, FL

### Digital Measurements

February 6-9, 2023 • Orlando, FL

### Real World Evidence

February 6-10, 2023 • Orlando, FL

### Biomarkers & Biospecimens

February 6-9, 2023 • Orlando, FL

### Quality & Monitoring

February 6-9, 2023 • Orlando, FL

### Med Device Trials

February 6-9, 2023 • Orlando, FL

### Lean Clin Ops for Small Biopharma

February 6-9, 2023 • Orlando, FL

### SCOPE Venture, Innovation, & Partnering Conference

February 6-8, 2023 • Orlando, FL

### Clinical Research Training Forum

February 6-8, 2023 • Orlando, FL

### Implementing Precision Medicine

March 6-7, 2023 • San Diego, CA

### Liquid Biopsy

March 6-7, 2023 • San Diego, CA

### Digital Medicine

March 6-7, 2023 • San Diego, CA

### Small Molecule Immuno-Modulators

April 11-12, 2023 • San Diego, CA

### PEGS Boston: The Essential Protein Engineering & Cell Therapy Summit

May 15-19, 2023 • Boston, MA

### Improving Immunotherapy Efficacy and Safety

May 15-16, 2023 • Boston, MA

### Antibodies for Cancer Therapy

May 15-16, 2023 • Boston, MA

### Cell-Based Immunotherapies

May 16-17, 2023 • Boston, MA

### Emerging Targets for Oncology and Beyond

May 16-17, 2023 • Boston, MA

### Immunogenicity Assessment and Management

May 16-17, 2023 • Boston, MA

### Driving Clinical Success in Antibody-Drug Conjugates

May 18-19, 2023 • Boston, MA

### Bio-IT World Conference & Expo

May 16-18, 2023 • Boston, MA

### Digitization of Clinical Development and Clinical Trials

May 17-18, 2023 • Boston, MA

## DETECTION

### Protein Stability & Aggregation

November 16, 2022 • Barcelona

### At-Home & Point-of-Care Diagnostics

March 6-7, 2023 • San Diego, CA

### Infectious Disease Diagnostics

March 7-8, 2023 • San Diego, CA

### Immunology Summit

October 12-14, 2022 • Boston, MA

### Combination Immunotherapies for Cancer

October 12-13, 2022 • Boston, MA

### Overcoming Resistance to IO Therapy

October 13-14, 2022 • Boston, MA

### Immunology Biomarkers

October 13-14, 2022 • Boston, MA

### Biomarkers & Biospecimens

February 6-9, 2023 • Orlando, FL

### Molecular & Precision Med Tri-Con

March 6-8, 2023 • San Diego, CA

### Spatial Biology

March 6-7, 2023 • San Diego, CA

### Implementing Precision Medicine

March 6-7, 2023 • San Diego, CA

### At-Home & Point-of-Care Diagnostics

March 6-7, 2023 • San Diego, CA

### Liquid Biopsy

March 6-7, 2023 • San Diego, CA

### Precision Health

March 7-8, 2023 • San Diego, CA

### Diagnostics Innovation and Market Access

March 7-8, 2023 • San Diego, CA

### Advanced Diagnostics for Precision Oncology

March 7-8, 2023 • San Diego, CA

### Infectious Disease Diagnostics

March 7-8, 2023 • San Diego, CA

## SCOPE Summit For Clinical Ops Executives Europe

October 3-4, 2022

Building on the success of its long-running US-based counterpart, the 5th Annual Summit for Clinical Trials Operations Executives Europe (SCOPE Europe) is a two-day event serving clinical innovation leaders, clin ops execs, digital leaders, functional heads, category managers, and those responsible for the planning and management of clinical trials in Europe and the Rest of the World. This event brings together leaders from large, mid-sized, and small pharma, specialty pharma, biotech, vendor companies, and academic research centers who come together to share best practices and discuss the new era of decentralized, analytics-driven and patient-centric trials. The event features four conference tracks, shared plenary keynotes, interactive small breakout discussion groups, panels and networking. Topics to be discussed include the digitalization of trials, decentralized/hybrid trial operations, adapting to COVID, protocol development, global site selection, feasibility, study start up, patient engagement, diversity, enrollment planning, patient recruitment, patient retention, improving site-study activation and performance, new regulations and guidelines, Risk-Based Monitoring (RBM), clinical technology, big data and analytics, Real-World Data (RWD), Artificial Intelligence (AI), biomarker-driven trials, and improving overall quality and speed of clinical trials.

## Immunogenicity & Bioassay Summit

October 3-6, 2022

CHI is excited to host its 14th Annual Immunogenicity & Bioassay Summit at the Crystal Gateway Marriott in Washington, D.C. We'll examine challenges facing the industry with NEW case studies, NEW perspectives and NEW approaches. Learn from industry, academia and the FDA at 3 Conference Programs, Symposium, Training Seminar, Workshop and 6 Short Courses. Once again, we'll host interactive breakouts on various niche topics so delegates can share experiences and generate new ideas. Plus, attend an exhibit and poster hall with innovative products & services.

## Evaluating Biopharma: Supply Chain Challenges

October 6, 2022

Even before COVID-19 adversely affected nearly all global industries and social functions, the biopharmaceutical supply chain was being strained due to the industry's rapid growth and global expansion. Our speakers provide first-hand experiences on why it's essential your company implement a team approach (PD, validation, manufacturing, purchasing) to manage supply chain risks, anticipate future supply disruptions, and implement viable supply chain strategies to minimize costly process and manufacturing disruptions.

[evaluatingbiopharma.com](https://evaluatingbiopharma.com)

## Immuno-Oncology Summit

October 12-14, 2022

Over the past 10 years, CHI's Immuno-Oncology Summit has become the leading annual meeting focusing on the latest applied research, providing comprehensive and in-depth coverage across all modalities and stages in the pipeline. Every year, we assemble an international mix of thought leaders and decision makers from industry and academia to bring you the latest developments in immuno-oncology, while providing access to a comprehensive 3-day program and extensive networking opportunities that CHI's IO Summit provides.

[immuno-oncologysummit.com](https://immuno-oncologysummit.com)

## Discovery on Target

October 17-20, 2022

Discovery on Target (DOT) highlights advances in current and emerging "hot" targets and technologies, as well as target validation strategies for the discovery and development of novel therapeutic agents ranging from biologics to small molecules. We aim to meet your research needs. Visit numerous concurrent sessions for informative presentations, lively dialogue, and meaningful connections with peers. Customize your experience further through focused short courses, interactive discussions, and networking options that help you engage with experts and solutions providers.

[discoveryontarget.com](https://discoveryontarget.com)

## Bio-IT World Conference & Expo Europe

October 18-19, 2022

For over 20 years, the Bio-IT World Conference & Expo has been the world's premier event showcasing the technologies and analytic approaches that solve problems, accelerate science, and drive the future of precision medicine. Bio-IT World has united a community of leading life sciences, pharmaceutical, clinical, healthcare, informatics, and technology experts in the fields of biomedical research, drug discovery & development, and healthcare from around the world. Since 2002, the Bio-IT World Conference & Expo has taken place annually in Boston and on 18-19 October, 2022, the event will host conversations that connect the people, ideas, and opportunities across Europe. Join your colleagues for updates from inspiring keynotes, more than 60 presentations across five tracks, and 2 days of interactive discussion and networking.

[bio-itworldeurope.com](https://bio-itworldeurope.com)

## Evaluating Biopharma: Process Intensification

October 27, 2022

The goal is to make more products faster and more efficiently, without sacrificing quality. Before implementing change, you need to answer several core questions, including: How can I intensify an established process with minimal risk? Why should I change a working, validated process? What are the appropriate technology options and what metrics should be considered to justify their investment? Our speakers provide insight on their experiences, decision-making processes and outcomes.

[evaluatingbiopharma.com](https://evaluatingbiopharma.com)

## PEGS Protein & Antibody Engineering Summit Europe

November 14-16, 2022

Network with more than 1,000 colleagues at PEGS Europe, the largest protein & antibody engineering event in Europe, which has been described as "the best biologics technology meeting in Europe." Last year, nearly 900 delegates from 35 countries, including 78% from pharma and biotech organizations, convened in beautiful Barcelona and online to discuss the latest advances in protein and antibody engineering.

[pegsummiteurope.com](https://pegsummiteurope.com)

## Executive Decision Making

November 14-18, 2022

Portfolio prioritization, agile capacity management and resource allocation, risk mitigation, and overall strategic decision making are becoming increasingly difficult in today's ever-changing pharma R&D landscape. Cambridge Healthtech Institute's Biopharma Strategy Series presents Executive Decision Making 2022, 3 days of high-level content, interactive discussions and networking, breakout roundtables, 1:1 meetings, and much more! Attendees will leave with new tools and organizational strategies to improve strategic decision making, optimize portfolio prioritization and resource planning, and drive value and resilience.

[executivedecisionmaking.com](http://executivedecisionmaking.com)

## Evaluating Biopharma: Cell Therapy Strategies

December 15, 2022

There have been tremendous advancements and breakthroughs in cell therapy treatments. Autologous treatments are extremely effective personalized therapies, but have significant medical, cost and commercialization limitations. Allogeneic treatments provide us with an opportunity to expand and extend access to personalized therapies to patients in need, but face efficacy, safety, and process hurdles. While related, the differences are stark, forcing your company to make unique and critical process and business decisions to ensure your company implements the best technologies to execute the most effective autologous and/or allogeneic cell therapy manufacturing strategy.

[evaluatingbiopharma.com](http://evaluatingbiopharma.com)

## PepTalk – The Protein Science and Production Week

January 16-20, 2023

PepTalk connects protein science researchers from around the globe to share case studies, unpublished data, breakthroughs, and solutions that support and enhance biotherapeutics development.

[CHI-PepTalk.com](http://CHI-PepTalk.com)

## Evaluating Biopharma: Gene Therapy Analytics

January 26, 2023

Common efficacy and quality challenges impact every company's ability to effectively produce and manufacture enough viral vector-based gene therapy products to support clinical and commercial supply demands. Our experts share their personal experiences and insights to help anticipate challenges and implement better CMC strategies to accelerate success.

[evaluatingbiopharma.com](http://evaluatingbiopharma.com)

## Digital Healthcare Innovation Summit West

February 2, 2023

Back in 2023 and on the west coast, DHIS West is back for an unparalleled annual gathering of the leading innovators, investors, payers, providers and policymakers who are driving the digital health revolution.

[dhis.net/west](http://dhis.net/west)

## SCOPE Summit for Clinical Ops Executives

February 6-9, 2023

Now more than ever, the important work of this clinical research community requires collaboration and innovation. Now in its 14th year of fostering these goals, SCOPE Summit 2023 will take place February 6-9, 2023 in Orlando, FL at the Rosen Shingle Creek. Over four stimulating days of in-depth discussions in 28 different conferences, 3 plenary keynote sessions, the 7th annual Participant Engagement Awards, special cross-department panels, the 2nd annual golf tournament, and the ever-popular interactive breakout discussions, the programming

[healthtech.com](http://healthtech.com)

focuses on advances and innovative solutions in all aspects of clinical trial innovation, planning, management and operations. SCOPE 2022 attracted more than 2,300 leaders in clinical operations and research and we are looking for new speakers and innovative stories for the 2023 program. All conference tracks will feature best practice case studies relevant to clinical operations experts and those new to the field. If you have a novel and innovative talk appropriate for one of these tracks, we would love to hear from you!

[scopesummit.com](http://scopesummit.com)

## Evaluating Biopharma: Cell Culture Process Optimization

February 23, 2023

Better cell culture media, cell lines, and bioreactor strategies are responsible for yielding 10+g/l on a consistent basis. Going forward, companies will continue to implement new technologies and process designs to support emerging therapeutics. Our experts share their personal experiences and insight to help anticipate challenges and choose appropriate technologies to support your production strategies.

[evaluatingbiopharma.com](http://evaluatingbiopharma.com)

## Molecular and Precision Med TRI-CON

March 6-8, 2023

For almost 3 decades, the Molecular & Precision Med TRI-CON has served as the leading international meeting place for the diagnostics and precision medicine community. As we celebrate the 30th Anniversary and look forward to in-person networking, Cambridge Healthtech Institute once again takes the leadership role of bringing together the life science community at the TRI-CON 2023. Join thousands of international thought leaders to discuss the latest research, technologies, innovation and business models in implementing precision medicine, biomarkers and companion diagnostics, genomic medicine, and precision health; innovation and market access strategies for at-home diagnostics, point-of-care testing and molecular diagnostics for infectious diseases; liquid biopsy and advanced diagnostics for precision oncology, including Multi-Cancer Early Detection and Minimal Residual Disease testing; and emerging technologies for spatial biology and single-cell multiomics. The new track on Digital Medicine reflects the future of precision medicine and adds coverage of artificial intelligence, digital diagnostics and digital biomarkers, digital pathology, sensors and wearables. Join us in sunny San Diego for the in-person networking you've come to expect from the TRI-CON and special 30th Anniversary keynotes. Don't miss a minute of the cutting-edge 10-track scientific program with convenient on-demand viewing.

[triconference.com](http://triconference.com)

## Decode: AI for Pharmaceutical Executives

March 7-8, 2023

Cutting-edge technologies have long played a key role in developing and delivering safe, reliable drugs to market, and yet the adoption of advanced analytics tools such as AI & ML, has been relatively slow in pharma compared to other sectors. For AI to make a true and scalable impact enabling patient centricity and desired business outcomes across drug discovery through commercial applications, outdated innovation models and data strategies must be redefined. This dedicated event brings together pharmaceutical executives to help further drive innovation across data and technology and navigate the implementation of ML & AI and to delve into the subsequent business outcomes. Combining strategic discussions on redefining your AI strategy, the value of AI, ethics and trust, risk mitigation, data quality and implementation success stories, this forum facilitates discussions and partnerships to continue the current AI momentum.

[decodeaiapharma.com](http://decodeaiapharma.com)

**OPT Congress**

March 13-14, 2023

OPT Congress is the premier conference for professionals involved in discovering and developing oligonucleotide therapeutics. Now in its 8th year, this unique event brings together leading discovery scientists, developers, CMC experts, regulatory specialists and technology providers to discuss advances in next-generation oligonucleotide and precision therapeutics throughout the drug development process. New this year, we are delighted to announce a third conference program dedicated to Emerging mRNA Therapeutics to complement our established Oligo Discovery & Delivery and CMC & Regulatory programs. In addition to 2 days of inspiring keynotes, interactive discussions and more than 55 scientific presentations, we deliver an in-depth course focusing on the Safety & Toxicity of Nucleic Acids. Join your peers and industry experts as together we optimize drug design, delivery and performance, accelerate time to market and achieve commercial success.

[optcongress.com](http://optcongress.com)**Bioprocessing Summit Europe**

March 14-16, 2023

The Bioprocessing Summit Europe brings together 500+ bioproduction, analytical and formulation professionals to advance the manufacture, quality and control of biological and genetic therapies. This 3-day, 10 track meeting has quickly become a premier meeting in the European bioprocessing calendar and is regarded by many as "the fastest growing bioprocessing meeting in Europe" following record growth in 2022 – 350 to 500+ attendees - and a sold out Exhibit Hall. We look forward to seeing you in Barcelona, or online, 14-16 March 2023, with expanded content on cell and gene therapy CMC and manufacturing, educational training seminars and a vastly bigger Exhibit Hall.

[bioprocessingeurope.com](http://bioprocessingeurope.com)**Drug Discovery Chemistry**

April 10-23, 2023

Cambridge Healthtech Institute's 18th Annual Drug Discovery Chemistry is a dynamic conference for medicinal and biophysical chemists working in pharma, biotech, and academia. Focused on discovery and optimization challenges of small molecule drug candidates, this event provides many exciting opportunities for scientists to create a unique program to hear presentations most suited to one's personal interests by going back and forth among concurrent tracks. New for 2023 is coverage of targeting transcription factors, plus greatly expanded coverage of protein degraders, molecular glues, and artificial intelligence for early drug discovery.

[drugdiscoverychemistry.com](http://drugdiscoverychemistry.com)**PEGS Boston: The Essential Protein Engineering & Cell Therapy Summit**

May 15-19, 2023

PEGS Boston Summit is the leading biologics event with comprehensive programming covering all aspects of biologic drug development with in-depth presentations on protein and antibody engineering, immunotherapy, oncology, expression, analytics, immunogenicity, and more. Harness the power of in-person events, form genuine connections, create valuable relationships with peers, and become part of the PEGS community.

[pegsummit.com](http://pegsummit.com)**Bio-IT World**

May 16-19, 2023

The Bio-IT World Conference & Expo is the world's premier event showcasing the technologies and analytic approaches that solve problems, accelerate science, and drive the future of precision medicine. For over 20 years, the Event has united a community of leading life sciences, pharmaceutical, clinical, healthcare, informatics, and technology experts in the fields of biomedical research, drug discovery & development, and healthcare from around the world. During May 16-18, 2023, the Bio-IT World Conference & Expo will return to the Hynes Convention Center in Boston (with a live virtual stream as well) and once again host the conversations that connect people, ideas, and opportunities that are advancing research and innovation. Join your peers for updates from inspiring keynotes, more than 190 presentations, and 3 days of interactive discussion.

[bio-itworldexpo.com](http://bio-itworldexpo.com)**Digital Healthcare Innovation Summit East**

June 7, 2023

The Digital Healthcare Innovation Summit (DHIS) is back in full force, and its participants have a lot to share after two years of Covid-forced changes in healthcare and the ever-flowing investment into this field. The pandemic has accelerated various aspects of healthcare, including virtual/hybrid primary and specialty care, but it has also further exposed health inequity and the need for further change. These lingering issues are the essence of DHIS and the reason our audience wants to gather again. Join other leading innovators, investors, payers, providers and policymakers as we continue to help revolutionize healthcare by creating an intimate atmosphere for sharing insights and networking that helps drive innovation!

[dhis.net/east](http://dhis.net/east)**MedTech MVP**

June 20-21, 2023

Our Unparalleled Gathering of the Leading Innovators, Investors and Executives from around the Nation Discussing the Timeliest Issues and Opportunities. Over 220+ innovators, investors and executives united in Minneapolis this June 14-15, 2022 for the 21st Annual Medtech MVP event. Highlights included keynote interviews, timely panel discussions, lots of networking, awards, and more!

### Our Vision

At Cambridge Healthtech Institute (CHI), we believe bringing together a unique and diverse constellation of innovators, scientists, and life science professionals can hold the key to developing tomorrow's cures and diagnostics.

We are a life science network for leading researchers and business experts from top pharmaceutical, biotech, and academic organizations. CHI's product portfolio includes Cambridge Healthtech Institute Conferences, Barnett International, Insight Pharma Reports, and Cambridge Innovation Publishing, consisting of Bio-IT World, Clinical Informatics News, and Diagnostics World.
