TABLE OF CONTENTS

SHORT COURSES	4
CONFERENCE BY SERIES	
Drug and Device Safety	4
Biological Therapeutic Products	5
Detection	5
Bioprocess and Manufacturing	8
Therapeutic Indications	6
Chemistry	6
Informatics and IT	7
BioPharmaceutical Strategy	8
Clinical Trials & Translational Medicine	9
Biomarkers and Diagnostics	9
Drug Targets	10
Technology and Tools for Life Sciences	11-12
Cambridge VIP	12
Drug Discovery & Development	13
CONFERENCES BY DATE WITH DETAIL	14-15

ABOUT CAMBRIDGE HEALTHTECH INSTITUTE

For 30+ years, Cambridge Healthtech Institute has developed more than 800 conferences, which have attracted over 60,000 attendees from around the world. CHI is the industry leader in offering quality programs that provide valuable new insights and competing points of view while offering balanced coverage of the latest developments in the life science industry. Leading researchers and business experts from top pharmaceutical, biotech, and academic organizations present their most current findings in a forum that features panel discussions and audience participation.

Each year, CHI organizes over 150+ Live & Virtual Events geared to the biotech and pharmaceutical industries with specific focuses on Biomarkers, Genomics, Proteins and Proteomics, Drug Discovery & Development, IT and Informatics, Chemistry, Diagnostics & Safety, and Business.

For a comprehensive listing and detailed information about our products and services, please visit: healthtech.com.

CONTACT US

CLIENT RELATIONS

Pamela Gerardi
Senior Director of Client Relations
E: pgerardi@healthtech.com | T: 781-972-5409

Kris Waterman
Client Relations Manager
E: kwateman@healthtech.com | T: 781-972-5413

MARKETING

Jim MacNeil
Senior Vice President of Marketing
E: jmacneil@healthtech.com | T: 781-972-5441

Rich Handy
Associate Vice President of Marketing
E: rhandy@healthtech.com | T: 781-972-5456

SPONSOR & EXHIBIT SALES

Patty Rose
Vice President of Sales
E: prose@healthtech.com | T: 781-972-1349

Ilana Quigley
Sales Director
E: iquigley@healthtech.com | T: 781-972-5457

GROUP SALES

David Cunningham
Director of Inside Sales
E: cunningham@healthtech.com | T: 781-972-5472

GRAPHICS

Thomas Norton
Senior Design Director
E: tnorton@healthtech.com | T: 781-972-5440

PRODUCTION

Edel O' Regan, Ph.D.
Senior Vice President of Production
E: eoregan@healthtech.com | T: 781-972-5423

Christina Lingham
Executive Director of Conferences and Fellow
E: clingham@healthtech.com | T: 781-972-5464

Mary Ann Brown
Executive Director of Conferences
E: mabrown@healthtech.com | T: 781-972-5497

Julia Boguslavsky
Executive Director of Conferences
E: juliab@healthtech.com | T: 760-732-3139

Micah Lieberman
Executive Director of Conferences
E: mlieberman@healthtech.com | T: 541-482-4709

Marina Filshinsky
Senior Conference Director
E: mfilshinsky@healthtech.com | T: 781-972-05496

Cambridge Healthtech Institute

250 First Avenue, Suite 300 | Needham, MA 02494
T: (781) 972-5400 or Toll-free in the U.S. 888-999-6288
F: (781) 972-5425

KEY EVENTS

17TH ANNUAL
SCOPE
Powering the Future
of Clinical Research
February 2-5, 2026
Rosen Shingle Creek
Orlando, FL + Virtual

Precision
Medicine
Innovation
33rd Annual
TRI-CON
May 4-5, 2026 | San Francisco, CA
Entering the
Age of AI

Short Courses

TA SPOTLIGHT: CNS and Mental-Health Trials

February 3, 2026 • Orlando, FL

TA SPOTLIGHT: Obesity and Metabolic Trials

February 3, 2026 • Orlando, FL

TA SPOTLIGHT: Oncology Trials

February 4, 2026 • Orlando, FL

TA SPOTLIGHT: Cell and Gene Therapy

February 5, 2026 • Orlando, FL

Safety & Toxicity of Nucleic Acids IN PERSON ONLY

March 18, 2026 • Boston, MA

Successful Late Phase Regulatory Submission for a Complex Oligonucleotide IN PERSON ONLY

March 18, 2026 • Boston, MA

Next Gen ADCs & Advanced Linkers & Conjugates: Mastering Design, Linker Optimization & Stability IN PERSON ONLY

March 18, 2026 • Boston, MA

Fragment-Based Drug Design: Advancing Tools and Technologies IN PERSON ONLY

April 13, 2026 • San Diego, CA

Protein Degradors: A Beyond Rule of Five Space and in vitro ADME Perspective IN PERSON ONLY

April 13, 2026 • San Diego, CA

From Biophysics to Cellular Target Engagement: Tools for Small Molecule Ligand Identification & Analysis IN PERSON ONLY

April 13, 2026 • San Diego, CA

Next-Gen AI Toolkit for Drug Discovery: From LLMs to Multi-Agent Systems IN PERSON ONLY

April 13, 2026 • San Diego, CA

Chemical Biology for Covalent Drug Discovery, Phenotypic Screening, and Target Deconvolution IN PERSON ONLY

April 15, 2026 • San Diego, CA

Protein Degraders: An in vivo ADME and Safety Perspective IN PERSON ONLY

April 15, 2026 • San Diego, CA

DNA-Encoded Libraries in Drug Discovery: Design, Screening, and Lead Development IN PERSON ONLY

April 15, 2026 • San Diego, CA

In silico and Machine Learning Tools for Antibody Design and Developability Predictions IN PERSON ONLY

May 10, 2026 • Boston, MA

Challenges and Opportunities in Solid Tumor and Autoimmune Disease Therapeutics IN PERSON ONLY

May 10, 2026 • Boston, MA

Unlocking Immunity: Mastering Epitope Analysis and Prediction with IEDB and CEDAR Tools & Insights IN PERSON ONLY

May 10, 2026 • Boston, MA

AI-Driven Predictive Preclinical Models: Rethinking the Role of Animal Testing IN PERSON ONLY

May 10, 2026 • Boston, MA

Safety & Efficacy of Bispecifics and ADCs IN PERSON ONLY

May 10, 2026 • Boston, MA

Automation in Action: Hands-on, Liquid Handling for Protein & Antibody Engineering IN PERSON ONLY

May 12, 2026 • Boston, MA

Best Practices and Advanced Applications for Label-Free Interaction Analysis in Therapeutic Antibody Discovery IN PERSON ONLY

May 12, 2026 • Boston, MA

Targeting the Target: Aligning Target and Biologic Format Biology to Achieve Desired Outcomes IN PERSON ONLY

May 12, 2026 • Boston, MA

Developability of Bispecific Antibodies IN PERSON ONLY

May 12, 2026 • Boston, MA

The Dark Proteome: Unlocking Novel Targets for Next-Generation Biologics IN PERSON ONLY

May 12, 2026 • Boston, MA

AI Implementation in Practice: A Hands-On Short Course (Bring Your Laptop)

May 18, 2026 • Boston, MA

Building Workflows and Advancing FAIR Bioinformatics Practices: A Practical Lab Using the Playbook Workflow Builder (PWB)

May 19, 2026 • Boston, MA

How to Standardize Data Science Ways of Working to Unlock Your Data Science Team's Creativity IN PERSON ONLY

May 19, 2026 • Boston, MA

Next-Gen AI for Drug Discovery: From LLMs to Multi-Agent Systems IN PERSON ONLY

May 19, 2026 • Boston, MA

Quantum Computing in Life Sciences: From Fundamentals to Future Applications IN PERSON ONLY

May 19, 2026 • Boston, MA

AI Upskilling for Computational Biology Teams IN PERSON ONLY

May 19, 2026 • Boston, MA

Making Data AI-Ready

May 19, 2026 • Boston, MA

Drug & Device Safety Series

Quality & Monitoring

February 2 - 5, 2026 • Orlando, FL

Safety & Pharmacovigilance

February 2 - 5, 2026 • Orlando, FL

Drug Discovery Chemistry

April 13 - 16, 2026 • San Diego, CA

Predicting Immunogenicity with AI/ML Tools

May 12 - 13, 2026 • Boston, MA

Gene Therapy CMC & Analytics

August 11 - 12, 2026 • Boston, MA

Cell Line Development & Engineering

August 11 - 12, 2026 • Boston, MA

Predicting Immunogenicity with AI/ML Tools

May 13 - 14, 2025 • Boston, MA

Clinical Supply & Logistics

February 2 - 5, 2026 • Orlando, FL

Cell Culture and Cell Line Engineering - Part 1

March 10 - 11, 2026 • Barcelona

Advances in Recovery and Purification - Part 1

March 10 - 11, 2026 • Barcelona

Peptide and Oligo Manufacturing

March 10 - 11, 2026 • Barcelona

Accelerating Analytical Development

March 10 - 11, 2026 • Barcelona

Cell Therapy Manufacturing and CMC

March 10 - 11, 2026 • Barcelona

Process Modelling and Digitalisation

March 10 - 11, 2026 • Barcelona

Cell Culture and Cell Line Engineering - Part 2

March 11 - 12, 2026 • Barcelona

Intensified and Continuous Processing

March 11 - 12, 2026 • Barcelona

Advances and Recovery and Purification - Part 2

March 11 - 12, 2026 • Barcelona

Biophysical Analysis and Developability

March 11 - 12, 2026 • Barcelona

Gene Therapy Manufacturing and CMC

March 11 - 12, 2026 • Barcelona

AI and Process Control

March 11 - 12, 2026 • Barcelona

OPT Congress: Oligonucleotide, mRNA & Peptide Therapeutics

March 18 - 19, 2026 • Boston, MA

Oligonucleotide Discovery & Delivery

March 18 - 19, 2026 • Boston, MA

Oligonucleotide CMC & Manufacturing

March 18 - 19, 2026 • Boston, MA

mRNA & Emerging Oligonucleotide Modalities

March 18 - 19, 2026 • Boston, MA

Peptides & Emerging Drug Conjugates

March 18 - 19, 2026 • Boston, MA

Women's Health: Drug Discovery to Novel Therapies

March 23 - 24, 2026 • San Diego, CA

Oral & Macrocyclic Peptides: Discovery to Development – Part 1

April 14 - 15, 2026 • San Diego, CA

Oral & Macrocyclic Peptides: Discovery to Development – Part 2

April 15 - 16, 2026 • San Diego, CA

Display of Biologics

May 11 - 12, 2026 • Boston, MA

Difficult-to-Express Proteins

May 11 - 12, 2026 • Boston, MA

Emerging T Cell Engagers

May 11, 2026 • Boston, MA

Biologics for Autoimmune Diseases

May 11 - 12, 2026 • Boston, MA

Optimizing Protein Expression

May 12 - 13, 2026 • Boston, MA

Advances in Immunotherapy

May 12 - 13, 2026 • Boston, MA

Advancing Multispecific Antibodies and Combination Therapy to the Clinic

May 12 - 13, 2026 • Boston, MA

Predicting Immunogenicity with AI/ML Tools

May 12 - 13, 2026 • Boston, MA

Frontiers in Radiopharmaceutical Therapy

May 12 - 13, 2026 • Boston, MA

Emerging Targets for Oncology & Beyond

May 12 - 13, 2026 • Boston, MA

Machine Learning for Protein Engineering

May 14 - 15, 2026 • Boston, MA

Engineering Bispecific and Multispecific Antibodies

May 14 - 15, 2026 • Boston, MA

Driving Clinical Success in Antibody-Drug Conjugates

May 14 - 15, 2026 • Boston, MA

Maximizing Protein Production Workflows

May 14 - 15, 2026 • Boston, MA

Next-Generation Immunotherapies

May 14 - 15, 2026 • Boston, MA

Emerging Peptide Therapeutics

May 14 - 15, 2026 • Boston, MA

SYMPOSIUM: Novel & Alternative Expression Systems

August 10, 2026 • Boston, MA

SYMPOSIUM: RNA and LNP Production and Formulation

August 10, 2026 • Boston, MA

SYMPOSIUM: Cell Therapy Analytics

August 10, 2026 • Boston, MA

SYMPOSIUM: CMC for ADC & Next-Generation Conjugates

August 10, 2026 • Boston, MA

Oligonucleotide and Peptide CMC and Manufacturing

August 11 - 12, 2026 • Boston, MA

Gene Therapy CMC & Analytics

August 11 - 12, 2026 • Boston, MA

Cell Line Development & Engineering

August 11 - 12, 2026 • Boston, MA

Analytical Intelligence

August 11 - 12, 2026 • Boston, MA

Formulation, Stability & Delivery

August 11 - 12, 2026 • Boston, MA

Intensified & Continuous Bioprocessing

August 11 - 12, 2026 • Boston, MA

Cell Culture & Upstream Processing

August 12 - 13, 2026 • Boston, MA

Next-Generation Analytical Methods

August 12 - 13, 2026 • Boston, MA

Gene Therapy Manufacturing

August 12 - 13, 2026 • Boston, MA

Digital Transformation & AI in Bioprocess

August 12 - 13, 2026 • Boston, MA

Advances in Purification & Recovery

August 12 - 13, 2026 • Boston, MA

Cell Therapy CMC & Manufacturing

August 12 - 13, 2026 • Boston, MA

Diagnostics Innovation

May 4 - 5, 2026 • San Francisco, CA

Frontiers in Radiopharmaceutical Therapy

May 12 - 13, 2026 • Boston, MA

Therapeutic Indications SERIES

Peptide Therapeutics: Accelerating Discovery and Development

January 21 - 22, 2026 • San Diego, CA

Advancing Multispecific Engineering to the Clinic

January 21 - 22, 2026 • San Diego, CA

Small Biopharma Strategies

February 2 - 5, 2026 • Orlando, FL

OPT Congress: Oligonucleotide, mRNA & Peptide Therapeutics

March 18 - 19, 2026 • Boston, MA

Oligonucleotide Discovery & Delivery

March 18 - 19, 2026 • Boston, MA

Oligonucleotide CMC & Manufacturing

March 18 - 19, 2026 • Boston, MA

mRNA & Emerging Oligonucleotide Modalities

March 18 - 19, 2026 • Boston, MA

Peptides & Emerging Drug Conjugates

March 18 - 19, 2026 • Boston, MA

HERS: Health Executive and Research Summit

March 23 - 24, 2026 • San Diego, CA

Women's Health Venture and Innovation

March 23 - 24, 2026 • San Diego, CA

Women's Health: Drug Discovery to Novel Therapies

March 23 - 24, 2026 • San Diego, CA

Covalent & Induced Proximity-Based Drugs

April 13, 2026 • San Diego, CA

Targeting Transcription Factors & Regulators

April 13, 2026 • San Diego, CA

Generative AI & Predictive Modeling

April 13, 2026 • San Diego, CA

RNA-Modulating Small Molecule Drugs

April 13, 2026 • San Diego, CA

AI/Machine Learning for Early Drug Discovery – Part 1

April 14 - 15, 2026 • San Diego, CA

Degraders & Molecular Glues – Part 1

April 14 - 15, 2026 • San Diego, CA

Degraders & Molecular Glues – Part 2

April 15 - 16, 2026 • San Diego, CA

AI/Machine Learning for Early Drug Discovery – Part 2

April 15 - 16, 2026 • San Diego, CA

Display of Biologics

May 11 - 12, 2026 • Boston, MA

Difficult-to-Express Proteins

May 11 - 12, 2026 • Boston, MA

Emerging T Cell Engagers

May 11, 2026 • Boston, MA

Biologics for Autoimmune Diseases

March 10 - 11, 2026 • Barcelona

Peptide and Oligo Manufacturing

March 10 - 11, 2026 • Barcelona

Accelerating Analytical Development

March 10 - 11, 2026 • Barcelona

Cell Therapy Manufacturing and CMC

March 10 - 11, 2026 • Barcelona

Process Modelling and Digitalisation

March 10 - 11, 2026 • Barcelona

**Cell Culture and Cell Line Engineering
- Part 2**

March 11 - 12, 2026 • Barcelona

Intensified and Continuous Processing

March 11 - 12, 2026 • Barcelona

**Advances and Recovery and Purification
- Part 2**

March 11 - 12, 2026 • Barcelona

Biophysical Analysis and Developability

March 11 - 12, 2026 • Barcelona

Gene Therapy Manufacturing and CMC

March 11 - 12, 2026 • Barcelona

AI and Process Control

March 11 - 12, 2026 • Barcelona

**OPT Congress: Oligonucleotide, mRNA
& Peptide Therapeutics**

March 18 - 19, 2026 • Boston, MA

Oligonucleotide CMC & Manufacturing

March 18 - 19, 2026 • Boston, MA

The Bioprocessing Summit

August 10 - 13, 2026 • Boston, MA

**SYMPOSIUM: Novel & Alternative
Expression Systems**

August 10, 2026 • Boston, MA

**SYMPOSIUM: RNA and LNP Production
and Formulation**

August 10, 2026 • Boston, MA

SYMPOSIUM: Cell Therapy Analytics

August 10, 2026 • Boston, MA

**SYMPOSIUM: CMC for ADC & Next-
Generation Conjugates**

August 10, 2026 • Boston, MA

**Oligonucleotide and Peptide CMC and
Manufacturing**

August 11 - 12, 2026 • Boston, MA

Gene Therapy CMC & Analytics

August 11 - 12, 2026 • Boston, MA

Cell Line Development & Engineering

August 11 - 12, 2026 • Boston, MA

Analytical Intelligence

August 11 - 12, 2026 • Boston, MA

Formulation, Stability & Delivery

August 11 - 12, 2026 • Boston, MA

Intensified & Continuous Bioprocessing

August 11 - 12, 2026 • Boston, MA

Cell Culture & Upstream Processing

August 12 - 13, 2026 • Boston, MA

Next-Generation Analytical Methods

August 12 - 13, 2026 • Boston, MA

Gene Therapy Manufacturing

August 12 - 13, 2026 • Boston, MA

**Digital Transformation & AI in
Bioprocess**

August 12 - 13, 2026 • Boston, MA

Advances in Purification & Recovery

August 12 - 13, 2026 • Boston, MA

Cell Therapy CMC & Manufacturing

August 12 - 13, 2026 • Boston, MA

**Summit for Clinical Ops Executives
(SCOPE)**

Summit for Clinical Ops Executives (SCOPE)

February 2 - 5, 2026

Now in its 17th year, SCOPE returns February 2–5, 2026, to Rosen Shingle Creek in Orlando, FL, bringing together the full clinical research ecosystem for four high-impact days of discussion, strategy, and networking. SCOPE 2025 convened 4,500+ attendees (10% growth over 2024), 630 speakers, and 300 exhibitors (20% growth over 2024), with 60% in key decision-making roles, cementing its position as the premier event for clinical trial innovation. SCOPE Summit welcomes senior executives from pharma, biotech, CROs, sites, technology, investment, and patient advocacy organizations, representing over 1,200 companies across 30 countries. If you're shaping the future of clinical research, you belong at SCOPE.

scopesummit.com**Clinical Trial Venture, Innovation & Partnering**

February 2 - 3, 2026

As part of the renowned 17th annual SCOPE Summit, the 4th annual Clinical Trial Venture, Innovation & Partnering Conference, taking place February 2–3, 2026, offers a focused, executive-level platform designed for forward-thinking investors, corporate leaders, and entrepreneurs shaping the future of clinical research. This high-impact, boutique event convenes a distinguished audience of C-suite executives from investment firms, growth-stage and mature companies, large pharma, hospitals, and corporate venture arms. With a dual focus on current market dynamics and long-term forecasting, this conference delivers actionable insights into emerging investment trends, scalable innovation strategies, and the evolving landscape of clinical trial partnerships. Attendees will benefit from candid discussions, fireside chats, and curated panels led by industry pioneers, covering capital allocation strategies, innovation pipelines, regulatory tailwinds, and risk-adjusted returns. Explore the exhibit hall featuring high-growth start-ups and established players, and gain visibility into breakthrough technologies, investment-grade opportunities, and strategic collaborations that will define the clinical trial ecosystem over the next decade. Whether you're seeking to inform your investment thesis, identify acquisition targets, or shape your corporate venture strategy, this event is engineered to support long-term value creation, portfolio growth, and strategic decision-making.

scopesummit.com/partnering**Dental VIP Summit**

February 18, 2026

The 2nd annual Dental VIP Summit will take place on Wednesday, February 18th in Chicago, IL (preceding the CDS Midwinter Meeting). Unite with Corporate, Clinical and Capital Leaders driving the future of dentistry with innovative treatments and technologies. The agenda features a full-day packed with keynotes, presentations from the most innovative start-ups & emerging growth companies, along with expert panel discussions. This is a premier opportunity to connect, collaborate, and shape the future of dental innovation.

dentalvipsummit.com**Integrative Healthcare Symposium**

February 19 - 21, 2026

The 21st Annual Integrative Healthcare Symposium offers premier educational experience designed for integrative health professionals and forward-thinking practitioners. The program delivers comprehensive, evidence-based insights with practical applications you can immediately bring back to strengthen and validate your practice. From Medical Doctors and Doctors of Osteopathy to Naturopathic Doctors, Registered Dietitian Nutritionists, Nurse Practitioners, Registered Nurses, Health Coaches and others, you will gain access to an exceptional mix of in-depth educational sessions and meaningful networking opportunities with leaders across the field.

ihsymposium.com**Bioprocessing Summit Europe**

March 10 - 12, 2026

Bioprocessing Summit Europe brings together 650+ professionals from industry and academia, along with 60+ exhibitors, to advance the manufacture, quality, and control of cutting-edge biologics, genetic therapies, peptides, and oligonucleotides. This 3-day, 14-track event is recognized as Europe's premier scientifically-driven bioprocessing gathering, offering actionable insights and practical solutions to enhance efficiency, speed, and cost-effectiveness in biomanufacturing. New for 2026, we're introducing a track on peptides and oligonucleotide manufacturing, alongside expanded sessions on bi- and multi-specifics, antibody-drug-conjugates, AI/ML, advanced process control, digitalization, developability, cell culture, downstream processing, sustainability, and the latest in cell, gene, and RNA therapies.

bioprocessingeurope.com**OPT Congress: Oligonucleotide, mRNA & Peptide Therapeutics**

March 18 - 19, 2026

OPT Congress 2026 is the leading industry event for scientists, directors, and technology providers driving innovation across oligonucleotide, mRNA, and peptide therapeutics. Now in its 11th year, this event provides a unique forum for translating cutting-edge science into transformative medicines, with expanded 2026 programming that includes the brand-new Peptides & Emerging Drug Conjugates conference. This year's agenda brings together experts from discovery through development, with dedicated content spanning AI-enabled design, extrahepatic delivery, scalable manufacturing, and next-gen modalities including saRNA, circular RNA, and radioligand peptide conjugates. Across four focused conferences —Oligonucleotide Discovery & Delivery, CMC & Manufacturing, mRNA & Emerging Modalities, and Peptides & Emerging Conjugates— attendees will explore 60+ scientific presentations, collaborative case studies, and real-world implementation strategies. From novel linkers and chemistries to regulatory insights, tech transfer, and delivery breakthroughs, OPT Congress fosters dialogue between pharma, biotech, academia, and technology providers. Join us for two days of actionable insights, short courses, and customizable content designed to support your therapeutic programs from bench to bedside.

optcongress.com**Health Executive & Research Summit**

March 23–24, 2026

Women's health has long been an underserved and underfunded area of medicine, despite women comprising over half the global population. From historically excluded clinical trials to persistent diagnostic gaps and limited funding for female-specific conditions, the need to transform women's health care is urgent and the opportunity is immense. For more than 30 years, Cambridge Healthtech Institute (CHI) has been at the forefront of convening leaders across the life sciences, diagnostics, and medical technology sectors. We are proud to launch HERS: Health Executive and Research Summit, a groundbreaking event dedicated to advancing innovation in women's health.

hersusa.com**Strategic Alliance Management Congress**

March 31 - April 1, 2026

As biopharmaceutical innovation becomes more collaborative and global, effective alliance management increasingly plays a decisive, business-critical role—transforming partnerships into powerful engines of progress. Now in its 23rd year – CHI's Strategic Alliance Management Congress is the leading forum for alliance professionals to gain strategic insights, benchmark with peers, and explore emerging tools and models shaping the future of partnering. Join us to strengthen your capabilities, expand your network, and maximize the value of every collaboration.

alliancemanagementcongress.com**Drug Discovery Chemistry**

April 13 - 16, 2026

Drug Discovery Chemistry is a dynamic conference for medicinal, biophysical, and computational chemists working across pharma, biotech, and academia. Focused on discovery and optimization challenges of small-molecule and macrocyclic drug candidates, the 2026 event features new sessions spanning AI- and ML-driven design, fragment- and structure-based discovery, molecular glues and degraders, DNA-encoded libraries, and emerging biophysical tools. Attendees can tailor their experience by exploring concurrent tracks covering today's most innovative approaches to drug discovery. As in the past, speaker participation by industry is once again very strong, with presentations from AbbVie, Amgen, Astex Pharmaceuticals, AstraZeneca, Bayer, Eli Lilly, Genentech, GlaxoSmithKline, Johnson & Johnson, Merck, Novartis, Pfizer, Roche, and numerous emerging biotechs.

drugdiscoverychemistry.com**Digital Healthcare Innovation Summit (DHIS)**

April 27–28, 2026

Join leading healthcare innovators and investors at the Digital Healthcare Innovation Summit (DHIS) in Boston, MA. We'll examine timely topics, such as direct-to-consumer healthcare, underserved populations, important regulatory or policy changes, distributed vs. centralized care, women's health, IaaS and IoT in healthcare, and more. Catch lively panels, take part in interactive breakouts, and network with industry leaders in this tight community. Investors, start-ups & emerging companies, tech companies, payers, providers, and veteran advisors will all be attending, so don't miss out. This premier boutique digital health event helps fuel healthcare innovation – be a part of it!

The Future of Mental Healthcare Summit

April 27-28, 2026

The Future of Mental Healthcare Summit is where thought leaders, practical implementers, and innovators meet to define and shape the next era of care. Now in its sixth year, this curated, peer-to-peer gathering is designed to deliver genuinely impactful conversations, deep connections, and tangible takeaways that cut through the noise. With a carefully crafted agenda and an audience of decision-makers from across the field, every interaction is intentional, and every discussion is built to address the challenges and opportunities that matter most in mental healthcare. Year after year, attendees leave equipped with fresh insights, influential relationships, and the momentum to drive meaningful, lasting change in mental healthcare for years to come.

Precision Med TRI-CON

May 4-5, 2026

Join us for an exclusive gathering of senior-level investors, pharma executives, entrepreneurs, research thought leaders, and innovators at the 33rd Annual TRI-CON. Connect with investors and partners at intimate networking sessions; gain strategic insights on funding activities, business development, and innovation strategies in diagnostics, precision medicine, and AI from industry-led panels; and hear candid perspectives and business recommendations from key opinion leaders during dynamic fireside chats. Building on a 30+ year track record, TRI-CON is positioned as the premier meeting place for key stakeholders to foster meaningful connections, acquire valuable strategic insights, and drive innovation and collaboration. Returning to San Francisco in 2026!

Food as Medicine

May 5-6, 2026

Now in its 6th year, The Food as Medicine Summit has a new home. Founded at Grey Green Media in 2021, The Food as Medicine Summit will once again provide the meeting point for all stakeholders from across the field to take Food as Medicine from an exciting promise to a scalable reality. The core pillars of The Summit remain—high-quality networking, an industry-shaping agenda, senior representation from all stakeholders, and more—but there are also a ton of NEW, exciting features for you to experience. As Food as Medicine and the world around us continue to evolve, it is essential that we come together to accelerate our work into the hands of those with unmet needs.

PEGS Boston: The Essential Protein & Antibody Engineering Summit

May 11 - 15, 2026

The PEGS Boston Summit is where the future of biologics takes shape. For over 20 years, PEGS is the go-to event for protein and antibody engineering, drug development, immunotherapy, radiotherapy, and AI/ML-driven biologics research. New in 2026: a dedicated focus on peptides, spotlighting their therapeutic power, design innovations, and expanding role in drug discovery. With 350+ presentations, breakout sessions, and interactive training seminars, PEGS delivers the insights and connections you need to stay ahead. The exhibit hall buzzes with top technology and service providers, giving you a front-row seat to the tools transforming the industry. Don't just follow the science - be part of it. Join us at the 2026 PEGS Boston Summit and connect with the leaders shaping what's next in biologics and beyond.

Aesthetics Innovation Summit

May 13, 2026

Since its inception in 2018, The Aesthetics Innovation Summit has emerged as the premier gathering where clinical practitioners, corporate leaders, and capital investors converge to examine the future of aesthetic innovation. This annual meeting bridges the worlds of science, commercialization, and investment by showcasing novel treatments, devices, and technologies in a highly selective forum. Over the years it has grown to become a platform where innovators position themselves, investors connect with the next wave of breakthroughs, and leading strategies shape market direction. With demand for presentation slots consistently high and participation limited, AIS continues to set the standard for thought leadership and deal-flow in aesthetics innovation.

SCOPE X

May 18-19, 2026

SCOPE X is the newest addition to the trusted SCOPE portfolio, created for clinical research executives and thought leaders who want to go beyond the surface and dive deeply into how advanced data strategies and artificial intelligence are transforming clinical research. This intimate, two-day gathering being held in Boston, the center of biopharma investment and innovation, brings together clinical research leaders, clin ops execs, heads of clinical data services, data scientists, technology innovators, AI startups, and experts for focused conversations on solving the industry's most pressing challenges. Expect highly interactive sessions, detailed case studies, and collaborative

Bio-IT World Conference & Expo

May 19-21, 2026

The Bio-IT World Conference & Expo is the premier global event showcasing technologies and analytic approaches that solve problems, accelerate science, and drive the future of precision medicine. Now in its 25th year, the event convenes more than 2,900 leaders from biopharma, clinical research, healthcare, informatics, and technology to exchange ideas, showcase solutions, and spark collaborations that push the boundaries of biomedical research, drug discovery, and patient outcomes. Spanning 200+ sessions—including plenary keynotes, symposia, technical workshops, and hands-on demonstrations—Bio-IT World offers unmatched opportunities to explore the tools, platforms, and strategies redefining R&D and clinical care. From AI, generative AI, and machine learning to multimodal and real-world data strategies, FAIR/Open Source practices, pilot programs, new product launches, and biotech investment trends, attendees engage in transformative conversations that translate innovation into measurable value. At its core, Bio-IT World is more than a conference—it is a community driving discovery, accelerating science, and shaping the conversations that define the next era of precision medicine.

Bio-IT World Venture, Innovation & Partnering

May 19, 2026

As part of the 25th Annual Bio-IT World Conference & Expo, the 3rd Annual Bio-IT World Venture, Innovation & Partnering Conference (May 19, 2026) delivers an executive-level platform for investors, corporate leaders, and entrepreneurs driving the next wave of biotech and precision medicine. This boutique event convenes C-suite leaders from venture capital, private equity, corporate venture arms, growth-stage companies, and pharma. The 2026 program zeroes in on AI-driven discovery, platform vs. product investment models, evolving M&A and partnership strategies, IPO and private liquidity pathways, and regulatory shifts shaping capital deployment. Sessions are designed to provide investors with clear insights into market dynamics, risk-adjusted returns, and scalable innovation strategies. Through candid discussions, fireside chats, and curated panels, participants will explore how capital is being allocated, where innovation pipelines are headed, and how to identify long-term winners. Alongside investor-focused dialogue, attendees gain access to 150+ exhibits, 11 scientific tracks, and global partners from 30+ countries to broaden market perspective.

Medtech MVP

June 1-2, 2026

Medtech MVP is an annual gathering of the leading innovators, investors and executives from around the nation discussing the timeliest issues and opportunities. This conference features candid discussions (panels or 1-on-1 conversations) that explore relevant topics for medtech innovators and business leaders as well as ample networking in a tight community. The many years of successful Medtech MVP programming have relied on insightful and beneficial perspectives and recommendations from our various keynotes and panels.

Bioprocessing Summit

August 10 - 13, 2026

Elevate your expertise, embrace innovation, and join the global leaders who are transforming the future of bioprocessing. Now in its 18th year, the Bioprocessing Summit unites a global community of scientists, engineers, and executives driving innovation and digitalization across process development, scale-up, quality, and analytics for biologics, antibodies, cell and gene, RNA, and oligonucleotide therapies. Explore how technology, data, and AI are reshaping every stage of the bioprocessing journey — Transforming Bioprocessing for the Digital Age

Cambridge Innovation Institute

CONNECTING MINDS INSPIRING PROGRESS

Cambridge Innovation Institute delivers cutting-edge information through events, publishing, and training to leading commercial, academic, government and research institutions across the life science, energy and other high technology industries. Our portfolio of events focuses on technology fields where research and development are essential for the advancement of innovation. We pride ourselves on providing the platforms where communities can **Research**, **Collaborate**, to achieve **Advancement**.

Events designed to do more than share information

They bring the right minds together at the right moment

Through focused agendas, expert-led discussions, and in-person collaboration, our conferences create an environment where ideas are challenged, partnerships form, and progress accelerates. By connecting researchers, investors, clinicians, technologists, and industry leaders face to face, we help turn insight into action and innovation into impact.
