Conference, Short Course, and
Training Seminar Catalog

March 2020 – August 2020

CHI is a division of
Cambridge **Innovation** Institute
RESEARCH • COLLABORATION • ADVANCEMENT

TABLE OF CONTENTS

CONFERENCE SERIES

Biological Therapeutic Products	4
BioPharmaceutical Strategy	4
Healthcare	4
Bioprocess and Manufacturing	5
Chemistry	5
Biomarkers and Diagnostics	5
Detection	5
Clinical Trials & Translational Medicine	6
Drug Targets	6
Informatics and IT	6
Drug Discovery & Development	7
Therapeutic Indications	7
Technology and Tools for Life Sciences	8
Genomics	8
CONFERENCES BY DATE WITH DETAIL	9-10
SHORT COURSES AND TRAINING SEMINARS	11-12

About Cambridge Healthtech Institute

For over 25 years, Cambridge Healthtech Institute has developed more than 800 conferences, which have attracted over 60,000 attendees from around the world. CHI is the industry leader in offering quality programs that provide valuable new insights and competing points of view while offering balanced coverage of the latest developments in the life science industry. Leading researchers and business experts from top pharmaceutical, biotech, and academic organizations present their most current findings in a forum that features panel discussions and audience participation.

Each year, CHI organizes over 170 annual events geared to the biotech and pharmaceutical industries with specific focuses on Biomarkers, Genomics, Proteins and Proteomics, Drug Discovery & Development, IT and Informatics, Chemistry, Diagnostics & Safety, and Business.

For a comprehensive listing and detailed information about our products and services, please visit: healthtech.com.

Adoptive Cell Therapy

March 3-4 • San Francisco, CA

Immuno-Oncology Summit Europe

March 9-12 • London, UK

Immunomodulatory Approaches

March 10-11 • London, UK

CARs, TILs, TCRs

March 10-11 • London, UK

Combination Immunotherapy

March 11-12 • London, UK

Bispecific Antibody Design and Applications

March 11-12 • London, UK

OPT Congress: Oligonucleotide & Precision Therapeutics

March 16-19 • Cambridge, MA

Oligonucleotide Discovery and Delivery

March 17-18 • Cambridge, MA

Artificial Intelligence for Drug Discovery & Development

March 19 • Cambridge, MA

PEGS: The Essential Protein Engineering & Cell Therapy Summit

May 4-8 • Boston, MA

Enabling Technologies for Liquid Biopsy and Beyond - Part 2

May 20-21 • Lisbon, Portugal

Point-of-Care Diagnostics

May 20-21 • Lisbon, Portugal

Biotherapeutics Analytical Summit

June 1-5 • Alexandria, VA

Early Analytical Development of Biotherapeutics

June 1-2 • Alexandria, VA

Impurities & Degradants

June 1-2 • Alexandria, VA

Advances in Characterization: Methods & Modalities

June 2-3 • Alexandria, VA

Comparability & Analytical Similarity

June 4-5 • Alexandria, VA

Preclinical Strategies, Models & Tools in Oncology

June 2-4 • Boston, MA

Emerging Indications & Modalities

June 2-4 • Boston, MA

Immuno-Oncology Advances

June 2-4 • Boston, MA

Advances in Drug Metabolism & Safety Testing

June 2-4 • Boston, MA

Cell Culture to Bioproduction

July 21-22 • Barcelona, Spain

Analytical Characterisation

July 21-22 • Barcelona, Spain

Continuous Processing for Biopharmaceuticals

July 21-22 • Barcelona, Spain

Cell Therapy CMC and Manufacturing

July 21-22 • Barcelona, Spain

Advances in Recovery and Purification

July 22-23 • Barcelona, Spain

Gene Therapy CMC and Manufacturing

July 22-23 • Barcelona, Spain

Cell Line Development to Protein Expression

July 22-23 • Barcelona, Spain

Formulation, Stability & Aggregation

July 22-23 • Barcelona, Spain

Immuno-Oncology Summit

August 10-14 • Boston, MA

Bispecific Antibodies for Cancer Immunotherapy

August 10-11 • Boston, MA

Oncolytic Virus Immunotherapy

August 10-11 • Boston, MA

Adoptive Cell Therapy

August 11-12 • Boston, MA

Preclinical and Translational Immuno-Oncology

August 11-12 • Boston, MA

Emerging Targets for Immunomodulatory**Antibodies and Combinations**

August 11-12 • Boston, MA

Immunotherapy for Auto-Immune, Infectious, and Neurological Diseases

August 13-14 • Boston, MA

Next-Generation Immunotherapies

August 13-14 • Boston, MA

Neoantigen Targeted Therapies and Personalized Cancer Vaccines

August 13-14 • Boston, MA

Display of Antibodies

August 31-September 1 • Boston, MA

Difficult-to-Express Proteins

August 31-September 1 • Boston, MA

Emerging Indications for Therapeutic Antibodies

August 31-September 1 • Boston, MA

Characterization for Novel Biotherapeutics

August 31-September 1 • Boston, MA

Antibodies for Cancer Therapy

August 31-September 1 • Boston, MA

Immunogenicity Case Studies and Clinical Management

August 31-September 1 • Boston, MA

Improving Immunotherapy Efficacy and Safety

August 31-September 1 • Boston, MA

Engineering Antibodies

September 2-3 • Boston, MA

Optimizing Protein Expression

September 2-3 • Boston, MA

Immunogenicity Assessment and Regulatory Approval of Biologics

September 2-3 • Boston, MA

Engineering Antibody-Drug Conjugates

September 2-3 • Boston, MA

Advancing Bispecific Antibodies and Combination Therapy to the Clinic

September 2-3 • Boston, MA

CARs, TCRs and TILs

September 2-3 • Boston, MA

Gene Therapy

September 2-3 • Boston, MA

Cell and Gene Therapy Analytics

September 3-4 • Boston, MA

Engineering Bispecific Antibodies

September 3-4 • Boston, MA

Agonist Immunotherapy Targets

September 3-4 • Boston, MA

Clinical Progress of Antibody-Drug Conjugates

September 3-4 • Boston, MA

Optimizing Bioassays for Biologics

September 3-4 • Boston, MA

Protein Expression System Engineering

September 3-4 • Boston, MA

**Molecular Medicine Tri-Conference**

March 1-4 • San Francisco, CA

Digitization of Pharma R&D

March 2-4 • San Francisco, CA

Precision Medicine

March 2-4 • San Francisco, CA

Business, Investing, and Partnering

March 2-4 • San Francisco, CA

Preclinical and Translational Immuno-Oncology

March 10-11 • London, UK

Conferences by Date with Detail

Molecular Medicine Tri-Conference

March 1-4, 2020 • San Francisco, CA

The International Molecular Medicine Tri-Conference, entering its 27th year, is one of the most comprehensive and leading industry events in the personalized medicine space today. The Tri-Conference brings together more than 3,100 innovative thinkers and thought leaders in the field of drug discovery, development and diagnostics, informatics, and digital health throughout pharma, biotech, and academia. Through comprehensive educational programming, valuable networking opportunities, and an expansive exhibit hall, event participants learn first-hand about the emerging developments and advancements of therapeutic, diagnostic, and technology approaches that are advancing precision medicine.

TriConference.com

PROTACs and Beyond

March 8-9, 2020 • London, United Kingdom

Cambridge Healthtech Institute's conference on PROTACs and Beyond will bring together a diverse group of chemists, biologists and pharmacologists to discuss the prospects, as well as the challenges underlying the various strategies for targeted protein degradation. They will also discuss the new molecular degraders, linkers and ligases being developed, and the assays and tools that are being used to further expand their potential.

ProtacSummit.com

Immuno-Oncology Summit Europe

March 9-12, 2020 • United Kingdom

Cambridge Healthtech Institute's Fifth Annual Immuno-Oncology Summit Europe returns to the heart of London's Canary Wharf for four days of cutting-edge science and discussion. Through six conference tracks, delegates will hear from the research teams at the forefront of the rapidly developing field of cancer biotherapeutics.

Immuno-OncologyEurope.com

Bioprocessing Summit Europe

July 21-23, 2020 • Barcelona, Spain

The fastest growing bioprocessing meeting in Europe is returning in 2020, this time in Barcelona with more ground-breaking science, technologies and exhibitors than ever before!

The 8 track conference, which doubled in attendance in 2019, brings together leading bioprocessing scientists to discuss the latest developments and trends in cell culture, cell line, protein expression, recovery, purification, cell and gene therapy manufacturing, and new for 2020, analytical characterization, formulation and aggregates.

Immuno-Oncology Summit

August 10-14, 2020 • Boston, MA

Over the past 8 years, CHI's Immuno-Oncology Summit has become the leading annual meeting focusing on the latest applied research, providing comprehensive and in-depth coverage across all modalities and stages in the pipeline. Every year, we assemble an international mix of thought leaders and decision makers from industry and academia to bring you the latest developments in immuno-oncology, while providing access to a comprehensive 5-day program and extensive networking opportunities that CHI's IO Summit provides.

The Bioprocessing Summit

August 24-28, 2020 • Boston, MA

The Bioprocessing Summit convenes more than 1,500 international bioprocess professionals to share practical solutions for today's bioprocess challenges. Now in its twelfth year, the event has grown to include 16 distinct meetings with week-long programming on upstream and downstream processing, analytical development and quality, formulation and stability, cell and gene therapy production, and manufacturing. Along with the impressive array of conferences, the Summit also includes short courses and training seminars that provide in-depth coverage of critical bioprocess topics.

Drug Discovery Chemistry

August 24-28, 2020 • San Diego, CA

Cambridge Healthtech Institute's 15th Annual Drug Discovery Chemistry is a dynamic conference for medicinal chemists working in pharma and biotech. Focused on discovery and optimization challenges of small molecule drug candidates, Drug Discovery Chemistry provides many exciting opportunities for scientists to create a unique program to hear presentations most suited to one's personal interests by going back and forth among concurrent conferences. The 2020 event includes new coverage of RNA as a small molecule target, expanded coverage of artificial intelligence for early drug discovery, plus even more short courses to choose from.

Next Generation Dx Summit

August 25-27, 2020 • Washington, DC

Next Generation Dx Summit brings together more than 800 international diagnostic professionals working in the field and offers unparalleled insight from the comprehensive programming and networking with key opinion leaders in the industry. The event is unique in the marketplace. This year the coverage spans cell- and cell-free biopsies, commercialization, reimbursement, biomarkers and companion diagnostics for immunotherapy, point-of-care testing, infectious disease, microfluidics and precision medicine. Now in its twelfth year, Next Generation Dx Summit is a must-attend event with complete coverage of the most timely and important issues for the industry.

PEGS: The Essential Protein Engineering & Cell Therapy Summit

August 31- September 4, 2020 • Boston, MA

More than 2,800 world-renowned experts, visionaries, and influencers from top pharma, biotech, academic, and government institutions convene in Boston each spring for PEGS: The Essential Protein Engineering & Cell Therapy Summit to hear inspiring thought leaders, attend in-depth training, tutorials and roundtable discussions, and to gain insights and knowledge on how the latest developments in biopharmaceuticals will impact and transform current research.

Short Courses and Training Seminars

SC = Short Course | TS = Training Seminar

Molecular Med Tri-Con

March 1-4, 2020 • San Francisco, CA

- SC2: Development and Implementation of NGS Diagnostics for Precision Medicine
- SC4: Introduction to Data Visualization for Biomedical Applications
- SC5: Artificial Intelligence and Machine Learning in Drug Discovery and Development - Part 1
- SC6: Translating CTCs and ctDNA for Clinical Use
- SC9: Companion Diagnostics for Immuno-Oncology
- SC10: Microfluidics and Other Devices for POCT
- SC12: Liquid Biopsy Technologies and Applications
- SC13: Artificial Intelligence and Machine Learning in Drug Discovery and Development - Part 2
- SC17: NGS as a Testing Platform: Technology, Clinical Applications, and Global Standardization Strategies
- SC18: Commercialization Boot Camp for Diagnostics: State of the State
- SC19: NGS for Infectious Disease Diagnostics
- SC21: Liquid Biopsy: Detection, Characterization, and Clinical Applications of Circulating Biomarkers
- SC22: Digital Medicine 101
- SC25: Coverage and Reimbursement for Advanced Diagnostics
- SC26: Gene Editing and Base Editing for Cell Therapies
- SC27: Early Cancer Detection
- SC28: Global Companion Diagnostic Commercialization Boot Camp
- SC29: How Molecular Multiplex Testing for Infectious Disease is Shaping Up

PROTACs and Beyond

March 8-9, 2020 • London, UK

- SC1: Protein Degraders: Getting Beyond the Lab

Immuno-Oncology Summit Europe

March 9-12, 2020 • London, UK

- SC1: Oncolytic Virus Therapy - Current Field, Challenges and Future Directions
- SC2: Next Generation Immunotherapies
- SC3: Engineering of Bispecific Antibodies and Multi-Specific Non-Antibody Scaffolds

Bioprocessing Summit Europe

July 21-23, 2020 • Barcelona, Spain

- SC1: Continuous and Integrated Bioprocessing Masterclass
- SC2: Potency Assays for Cell and Gene Therapies
- SC3: Technical Development of T Cell-Based Immunotherapies - Considerations and Lessons Learned
- SC4: Quality Considerations for Gene Therapy Viral Vectors
- SC5: Saving Time in Process Development with Next Generation Methods: PAT, Hybrid Modeling, Process Simulation, mDoe and iDoE
- SC6: Understanding Chromatography to Design Efficient Bioprocesses with a Predictive Approach
- SC7: Predicting & Controlling Bioformulation Stability
- TS5A: Intro to Gene Therapy and Viral Vectors

Immuno-Oncology Summit

August 10-14, 2020 • Boston, MA

- SC1: Development of Bioassays for Checkpoint Immunotherapy and Other Immuno-Oncology Leads
- TS1: Introduction to Cancer Immunotherapy Discovery and Development
- TS2: Introduction to Immunology for Drug Discovery Scientists

The Bioprocessing Summit

August 24-28, 2020 • Boston, MA

- SC1: Optimizing Media-Achieving Super Soup
- SC2: QbD Strategies for Formulation Development of Protein Therapeutics
- SC3: Operational Excellence in Bioprocessing: PAT, QbD, DoE
- SC4: ADC "Developability": Critical Quality Attributes Inform Formulation
- SC5: Dinner: Extractables & Leachables
- SC6: Dinner: Accelerated Stability Testing of Biologics
- SC7: Dinner: Analytical Strategies for Comparability in Bioprocess Development
- SC8: Dinner: Biophysical Characterization in Developing Biopharmaceuticals
- SC9: Dinner: ABC: Anything But Chromatography - Precipitation, Crystallization and Flocculation
- SC10: Dinner: Bioprocess Development
- TS2: Current & Emerging Global Regulatory Expectations for Analytical Elements

Drug Discovery Chemistry

August 24-28, 2020 • San Diego, CA

- SC1: Biochemistry and Pharmacology of the Ubiquitin-Proteasome System
- SC2: Immunology Basics for Chemists
- SC3: Pharmacology Tricks of the Trade: Identifying Highly Active Compounds and Avoiding Assay Artifacts
- SC4: Fragment-Based Drug Design: Tools and Techniques
- SC5: Macrocyclic Compounds for Drug Discovery: Opportunities, Challenges, and Strategies
- SC6: Emerging Chemical Tools for Phenotypic Screening and Target Deconvolution
- SC8: Targeted Protein Degradation Using PROTACs, Molecular Glues, and More
- SC9: GPCR Structures and Enabling Biophysical Tools
- SC10: Trends in Physical Properties of Drugs
- SC12: DNA-Encoded Libraries & Affinity Selection Methods for Small and Large Molecules
- SC13: Principles of Immuno-Oncology
- SC14: Ligand-Receptor Molecular Interactions and Drug Design
- SC15: Methodologies for Optimizing Drug Clearance and Drug-Drug Interactions

Next Generation Dx Summit

August 25-27, 2020 • Washington, DC

- SC1: Micro- and Nanofluidics in Diagnostics and Life Sciences
- SC2: Boosting Your Omics and Biomarker Projects through an Efficient and Rigorous Study Design
- SC3: Latest Advances in Molecular Pathology, Part I
- SC4: Applications of Detection Theory in Diagnostics
- SC5: Automation Solutions for Molecular Diagnostics
- SC6: Business Strategies for Companion Diagnostics
- SC7: Latest Advances in Molecular Pathology, Part II
- SC8: The Future of Point-of-Care Diagnostics
- SC9: Mass Spec Methods for the Clinical Lab

PEGS: The Essential Protein Engineering & Cell Therapy Summit

August 1-September 4, 2020 • Boston, MA

- SC1: Clinical Assessment of Immunogenicity of New Modalities: Focus on Bispecific Antibodies, Gene Therapy and Oligonucleotides
- SC2: Translational Biotherapeutic Development Strategies Part I: Discovery, Molecular Assessment and Early Stage Development
- SC3: Understanding and Modulating Tumor Microenvironment for Immunotherapy
- SC4: Bioanalytical Method Validation by LC-MS
- SC5: In silico and in vitro Immunogenicity Risk Assessment: Overview and Real-Life Examples
- SC6: Translational Biotherapeutic Development Strategies Part II: Analytical and Clinical Considerations
- SC7: Introduction to Bispecific Antibodies: Design, Formats and Applications
- SC8: Engineering Better Antibody Therapeutics Using Computational Approaches
- SC9: Introduction to Biophysical Analysis for Biotherapeutics: Development Applications
- SC10: CAR T-Cell Therapy from A-Z
- SC11: Developability of Bispecific Antibodies: Formats, Assays and Case Studies
- SC12: Emerging Applications for Gene Editing, Base editing and RNA Editing
- SC13: Design Strategies and Development of ADCs
- SC14: USP Standards to Support Quality of Potency Measurements
- SC15: Introduction to Gene Therapy Products Manufacturing and Analytics
- SC16: Assembling an Effective Toolbox of Expression Systems to Support your Research Efforts
- TS8A: Introduction to Protein Engineering
- TS9A: Introduction to Structure-Based Drug Design and Development
- TS10A: Introduction to Bispecifics: History, Engineering, and Application
- TS11A: Introduction to Immunology for Drug Discovery Scientists
- TS9B: Antibody Deep Sequencing and Single Cell Analysis
- TS10B: Introduction to Cancer Immunotherapy Discovery and Development
- TS11B: Essentials in Bioassay Development and Validation
- TS12B: Introduction to Bioprocessing
- TS7C: Genome Editing with CRISPR: Towards Novel Research, Translational and Clinical Applications
- TS8C: Introduction to Immunogenicity

About Cambridge Healthtech Institute

Your Life Science Network

Cambridge Healthtech Institute (CHI) is the preeminent life science network for leading researchers and business experts from top pharmaceutical, biotech, CROs, academia, and niche service providers. CHI is renowned for its vast conference portfolio held worldwide including PepTalk, Molecular Medicine Tri-CON, SCOPE Summit, Bio-IT World Conference & Expo, PEGS Summit, Drug Discovery Chemistry, Biomarker World Congress, World Pharmaceutical Congress, Next Generation Dx Summit and Discovery on Target.

Additional divisions of CHI include
